Front-End Developer with 2+ years of experience building responsive, scalable, and user-friendly web applications using React. Skilled in optimizing performance, collaborating in agile teams, and delivering features that improve user experience.

WORK EXPERIENCE

Associate Developer, Appycodes

July 2023 - Present

- Built and optimized responsive web applications using React and Next.js, improving cross-device performance and accessibility.
- Reduced page load time by 25% through code-splitting, lazy loading, and image optimization.
- Collaborated with designers and back-end engineers to implement REST APIs, ensuring seamless data flow across platforms.
- Developed reusable UI components and custom hooks, reducing development time for new features.
- Implemented SEO best practices and structured metadata, improving organic traffic.

TECHNICAL SKILLS

- Languages and Tools:** JavaScript, TypeScript, React, Next JS, Git & GitHub.
- UI Libraries and Animations:** Tailwind CSS, Material UI & Framer Motion.
- API related:** REST API, Axios, TanStack Query & Redux.
- Others:** Good Communication & Problem Solving.

PROJECTS

Blog Website | Next.js, Sanity CMS

- Built a responsive blog platform with dynamic routing and server-side rendering for SEO optimization.
- Integrated Sanity CMS for content management.
- Implemented category-based filtering to enhance user experience.

Learning Management System | Next.js

- Developed an LMS for Students with secure authentication.
- Implemented video streaming and discussion forum for interactive learning.
- Designed reusable UI components with Tailwind CSS, improving development speed by 25%.
- Optimized backend API queries, reducing data-fetching time by 30%.
