📍 West Bengal, India

SUMMARY

Front-End Developer with 3 years of experience building scalable React and Next.js applications using TypeScript, Redux Toolkit, REST APIs, and modern frontend architecture. Experienced in responsive UI development, performance optimization, reusable component design, and API integration.

WORK EXPERIENCE

Associate Developer, Appycodes

July 2023 – Present

- Developed a dynamic quotation generation module using React, Next.js, Redux Toolkit, and Material UI, streamlining the quotation creation process.
- Built reusable UI components and integrated REST APIs for a large-scale e-commerce platform using Next.js and React.
- Developed responsive dashboards, CMS features, and business applications with React, TanStack Query, and Supabase.
- Built and shipped a React Native event check-in application that successfully processed 1,800+ ticket scans during a live event.
- Collaborated with clients to gather requirements, deliver features, and provide production support across multiple applications.
