SUMMARY

Front-End Developer with 3 years of experience in React, Next.js, and TypeScript, building scalable, high-performance web applications with a focus on responsive UI, reusable architecture, API integration, and performance.

WORK EXPERIENCE

Associate Developer, Appycodes

July 2023 – Present

- Built and delivered scalable web and mobile applications across e-commerce, enterprise, healthcare, CMS, recruitment, and event management domains using React, Next.js, and React Native.
- Took ownership of end-to-end feature development, from UI implementation and business logic to API integration, testing, deployment, and production support.
- Collaborated directly with clients to gather requirements, translate feedback into product improvements, and ensure successful project delivery.
- Adapted quickly to new technologies and frameworks, including Refine.js, Supabase, Sanity CMS, Expo, and AWS services, contributing effectively with minimal ramp-up time.
- Successfully shipped production applications used by real customers, including an event check-in app that processed over 1,800 ticket scans during a live event and multiple iOS applications published to the App Store.
