SUMMARY

Front-End Developer with 3 years of experience building scalable React and Next.js applications using TypeScript, Redux Toolkit, REST APIs, and modern frontend architecture. Experienced in responsive UI development, performance optimization, reusable component design, and API integration.

WORK EXPERIENCE

Associate Developer, Appycodes

July 2023 – Present

- Built and delivered scalable web and mobile applications across e-commerce, enterprise, healthcare, CMS, recruitment, and event management domains using React, Next.js, and React Native.
- Took ownership of end-to-end feature development, from UI implementation and business logic to API integration, testing, deployment, and production support.
- Collaborated directly with clients to gather requirements, translate feedback into product improvements, and ensure successful project delivery.
- Adapted quickly to new technologies and frameworks, including Refine.js, Supabase, Sanity CMS, Expo, and AWS services, contributing effectively with minimal ramp-up time.
- Successfully shipped production applications used by real customers, including an event check-in app that processed over 1,800 ticket scans during a live event and multiple iOS applications published to the App Store.
